

V300125

ELEMENTS PRODUCT & ORDERING GUIDE

BLADE OPTIONS

* ALL MEASUREMENTS ARE IN MILLIMETERS

Blade Profile	Elliptical	Elliptical
Blade Sizes	64	89
Blade Thickness	11	11

MINIMUM REVEAL DEPTHS

Minimum reveal depths can be found on each installation method header page. Please measure from the most protruding object in the reveal. The most common window types are listed below with reminders of where to measure from to confirm that there is enough reveal depth for your chosen installation method.

- Double-hung window: handles that lift the inside window
- Casement window: crank handle
- Sliding windows: slider handle/ storm bar

TILT RODS

REAR FACING TILT ROD

CLEARVIEW
Best option for an uninterrupted view.
Default Position: Rear of panel on hinged side.

COLOUR OPTIONS

PAINTED COLOURS:

The following 8 colours, are TWO's new standard painted colour range, available to order from the 14 December 2023. Contact your Account Manager to order fandeck swatching.

 (P131) Colour inspired by Dulux Vivid White™	 (P132) Colour inspired by Dulux Lexicon®	 (P134) Colour inspired by Dulux Lexicon® Quarter	 (P135) Colour inspired by Dulux Natural White™	 (P136) Colour inspired by Dulux White on White™
 (P137) Colour inspired by Dulux Antique White U.S.A®	 (P138) Colour inspired by Dulux Hog Bristle® Quarter	 (P139) Colour inspired by Dulux Whisper White	Please ensure that you have the most up to date swatching as colors may vary between supplied decks. Contact your sales representative to order new swatching if needed.	

OLD PAINTED COLOURS:

The old painted colour range will be available until further notice.

 (P100) White	 (P105) Silk White	 (P104) Shell	 (P103) Ivory	 (P107) Alabaster
 (P113) Whisper White	 (P112) Antique White	 (P106) Pearl	 (P108) Dove	 (P102) Sandy Day
 (P109) Grey	 (P101) Clotted Cream	 (P90) TWO White		

CUSTOM COLOURS:

Choose from the Dulux World of Colour Series II fan deck.

IMPORTANT NOTE: Custom colours are matched to the Dulux World of Colour fan deck. If you are unsure if the requested colour is from this deck it is best to supply a sample that will be sent to our factory for colour matching.

STILES

NOTE: Stiles will be 41mm on joined panels.

MID-RAILS

HOW TO MEASURE:

AVAILABLE SIZES:

Standard Rails - Clearview Tilt:

- 76mm x 20mm (2001)
- 102mm x 20mm (2002)

Euro Rails - Clearview Tilt

- 70mm x 20mm (2025)
- 95mm x 20mm (2025)

Mid-rail:

Measure from bottom of opening to centerpoint of required mid-rail.

Mid-rail placement is within + or - one blade size. If position is critical, please select 'Critical Midrail' option in special instructions.

Min. Top & Bottom Rail - 78mm
Max. Top & Bottom Rail - 180mm

You can now select a mid rail location that is critical within 20mm up or down. This will allow the factory to automatically adjust the mid rail if necessary (within 20mm +/-), to ensure the top and bottom rails are within workable limits. By selecting a critical mid rail position allowing for a 20mm +/- adjustment, means the factory will not need to ask for approval from you, and you will not need to request a drawing, speeding up the order process.

SPLIT ROTATION

Split Rotation is when the tilt rod is divided so that the blades can be operated in different sections. The split rotation is measured from the bottom of the opening to the requested split point. Each section has a tension screw so you can adjust the tension for each bank of blades.

If no height is specified, the factory will automatically split the tilt rod when the height exceeds a certain limit. This ensures the structural integrity of the blades and proper blade closure. Check the warranty sheet for more details.

To request a split rotation when ordering, enter one of the following options in the Split Rotation Height field:

- 1/2
- 1/2 above midrail (if the item has a midrail)
- 1/2 below midrail (if the item has a midrail)
- 3 equal sections
- 1/2 above and below midrail (if the item has a midrail)
- Or enter the specific measurement you need.

T-POST

Max length of posts is 3000mm. For lengths requested longer, they will be supplied cut in half by default.

HINGED SHUTTERS IN BAY OR CORNER WINDOWS

AVAILABLE IN HINGED L OR Z FRAMES

Max length of posts is 3000mm. For lengths requested longer, they will be supplied cut in half by default.

CORNER POSTS

BAY POSTS

AVAILABLE PANEL CONFIGURATIONS

4 panel, Configuration code: LBL-DRBR

6 panel, Configuration code: LBLL-DRRBR

8 panel, Configuration code: L-DRBLL-DRRBL-DR

2 panel, Configuration code: LCR

3 panel, Configuration code: LCL-DR or LD-RCR

4 panel 1 corner, Configuration code: LD-RCL-DR

4 panel 2 corners, Configuration code: LCL-DRCR

6 panel 2 corner, Configuration code: LD-RCL-DRCL-DR or LCLL-DRRCR

HOW TO MEASURE

Bay Window: Inside Mount (L or Z)

Bay Window: Outside Mount (L Only)

Corner Window: Inside Mount (L or Z)

Corner Window: Outside Mount (L Only)

QUIRKS: USING A Z FRAME

In both Bay and Corner windows where there is an architrave as highlighted below in red, the measurements must be taken from the inside outer edge of the opening.

IMPORTANT NOTE: When placing your order online always work from left to right of the opening.

Sub-Width 1 = Measure 1. Sub-Width 2 = Measure 1 + Measure 2

Measure 3 is the total width i.e Measure 1 + Measure 2 + Measure 3

INSTALLATION METHOD: HINGED NO FRAME USED WHEN FRAMES ARE NOT WANTED.

FACE

FASCIA DEPTH = 140MM

Reveal Mount: Pelmet is fixed into the opening and the headboard is screwed up into the opening. The fascia will sit flush with the front of the opening and will not have returns.

Semi-Reveal Mount: Pelmet is fixed half in the opening and half out of the opening and the headboard is screwed up into the opening. A face mount and returns are supplied. The reveals will stop short of the width of the pelmet and hit the face of the opening.

Face Mount: Pelmet is fixed on to the outside of the opening, normally above the architrave. The headboard is attached using a 30x30 cleat. Fascia and full length returns are supplied.

AVAILABLE PANEL CONFIGURATIONS

2 panels on 2 tracks, Configuration code: BF or FB

Note: Single panels sliding on 1 Track are denoted with a "S" for one panel, and a "SS" for 2 panels on a single track.

3 panels on 2 tracks, Configuration code: BFB or FBF or FBB or BBF

3 panels on 3 tracks, Configuration code: BMF or FMB
NOTE: 3 tracks only available with blades closed option

4 panels on 2 tracks, Configuration code: BFFB or FBBF

JOINED PANELS

Panel configurations BBFF and FFBB will be supplied as joined panels by default. Please specify in notes if you do not wish the panels to be joined.

Joined panels are two panels that share a center stile allowing them to operate as a single panel. NOTE: Panels are joined with a 41mm flat stile only.

SIDEBOARDS

Sideboards are mandatory for both sliding and multi-fold installation methods. Orders placed without sideboards will be a non-warranty item.

PRE-DRILLING OF FRAMES

If requested in Special Instructions, the factory will pre-drill countersunk holes as per the following guidelines:

Inside Mount -

Outside Mount -

Side Frames - The pre-drilled hole will be placed at the center of the hinge section and will line up with the middle of the hinge screws on both the top and bottom hinges. See below drawing.

Top & Bottom Frames - If there is only one panel, no holes are needed.

If it is more than one panel, a hole will be pre-drilled at the center of the top and bottom frames with a maximum of six holes pre-drilled for each opening.

CUPBOARD CATCH

Designed to hold firmly and prevent doors swinging open during windy conditions. The catch is made from plastic and installed with a stainless steel screw (rust proof). No surcharge applicable.

HOW TO ORDER:

When placing your order, please select Cupboard Catch from the Extras drop-down. This option will be supplied loose in order to prevent damage in transit.

COLOUR MATCH STICKERS

Colour match stickers are available for custom colour jobs. Surcharge applies.

UNIVERSAL PULL STICK

Open shutter blades with ease in out of reach installations for light adjustment.

Available in White.

HOW TO ORDER:

Select from the *Extras* drop-down menu.

BLADE CLOSURE RING PULL

Available Sizes: 64mm, 89mm, 114mm blades

Product Code A9100

Available in Black or White.

HOW TO ORDER:

Order under *Extras* in the drop-down menu.

SHELF BRACKET

Available in Mill (colour)

HOW TO ORDER:

Order under *Extras* with your specified width requirements.

IMPORTANT NOTE

The opening has to increase by 40mm in height.

Measurement is to the bottom of the headboard as a standard face fit opening.

It is up to the dealer to provide the measurement to the underside of the headboard increasing the height of the opening by a minimum of 40mm.

MAGNET INSTALLED FOR PANELS >2200MM

Magnet installed midway
behind stile.

When the panel is >2200mm
the magnet comes standard.

For panels <2200mm,
please request under Special
Instructions.

SPECIAL SHAPES

Special shapes can only be made for:

- Panel only
- P4022 Standard Z Frame
- P4041 48mm Flat L Frame

Available shapes:

- Arches
- Slopes
- Rakes

Circle and oval shapes are not available.
