

V.17.01.25

CYCLONE SHUTTER SPECIFICATION & INSTALLATION MANUAL

INTRODUCTION

With a 85mm blade engineered and designed to extreme durability while maintaining a contemporary design.

Cyclone tested by the University of Queensland to comply with AS2047, AS1170.2.

This shutter exceeds all structural, water and debris impact performance requirement for cyclone and extreme weather conditions.

Constructed for use on balconies and other commercial applications, the fusion of style and functionality make this shutter popular for any new or existing building.

SHUTTER SPECIFICATIONS

COMPONENT DESCRIPTIONS

COMPONENT	DESCRIPTION
Panel Top & Bottom Rails	79mm x 40mm
Panel Side Rails	50mm x 50mm Side Frame, - 50mm x 50mm Stacking Side Frame with interlocking contacting reveal.
Transom	85mm x 12mm ellipse blade and two off side-opening link bars per opening blade set. Louvre blades below the height of the balustrade rail shall be fixed in the closed position for child safety.
Top Channel & Track Cover	47mm x 47mm
Top Track	42mm x 50mm continuous length to balcony openings, fixed to balcony soffit at 500cra with 12g x 50mm SS screws, or such additional fixings as the engineer specifies.
Top Track Glide	Roller glide with 10mm x 65mm hex-angular head stainless steel bolt.
Bottom Track	29mm x 31mm continuous length to balcony openings, fixed to bottom support brackets.
Bottom Track Glide	Roller glide with 10mm stainless steel bolt.
Bi-folding Hinges	Offset hinges to enable greater than 180 degree positioning of the adjoining panels. Provide three of per pair of shutter panels.
Locking Bolt	Flush bolt throw to each panel.

PRODUCT & INSTALLATION TO: AS OF 2047

AS 1231 2000, Aluminium alloys - Anodic oxidation coatings.

AS/NZS 1866 1997, Aluminium alloys - Extruded rod, bar, solid and hollow shapes.

AS/NZS 1170, Structural design actions.

AS/NZS, 1170.2 2002, Wind actions

Top & Bottom Rail
79mm x 50mm

Elliptical Blade
85mm

Top Track
42mm x 50mm

Bottom Track
42mm x 50mm

INSTALLATION TYPE – FIXED

Shutter panels are fixed in U channels top and bottom.

Top Fixed U Channel
50mm x 56mm

Bottom Fixed U Channel
25mm x 56mm

INSTALLATION TYPE – BIFOLD

Single Pair Bifold - This single pair system allows you to bring out as many pairs as you need.

Bifold Shutters - The shutters are hinged and slide together as a single pair. The track is to run the full length of the balcony to allow the shutters to park on both sides.

INSTALLATION TYPE – BIFOLD

FRONT VIEW

INSTALLATION TYPE – SLIDING

The shutter panels can slide full length of the balcony on single parallel tracks.

Top Track
42mm x 50mm

Bottom Track
42mm x 50mm

INSTALLATION TYPE – SLIDING

TOP VIEW

FRONT VIEW

INSTALLATION TYPE – STACK BAY

Shutter panels are to slide individually along a single track and stack (at 90 degrees) at the side of the opening. The track is to run the full length of the balcony to allow individual shutters to be positioned as required along the opening.

FRONT & SIDE VIEW

See next page for Details A and B

INSTALLATION TYPE – STACK BAY

Single stacking shutters require substantial structural support for the stack bay such as concrete ceilings.

DETAILS A

Blades below the mod-rail for balcony shutters (drop greater than 4.3m) require to be shut closed due to claimable horizontal elements.

DETAILS B

INSTALLATION TYPE – STACK BAY

TRACKS & U CHANNELS

TOP TRACK & EXTENSION U CHANNEL

The top track system is to include a 48mm x 47mm extension U channel to conceal gaps between the track and the ceiling.

Top Extension U Channel
47mm x 48mm

Top Track

COLOUR OPTIONS

There are four standard powdercoat finishes (40% sheen) available.

CUSTOM COLOUR OPTONS

Choose from one of the many colours offered by Dulux. Please be sure to select from the below pictured specifier for accurate colour matching "to deck".

Please Note: Custom colour finishes are applied as a powder coat. Blade end caps will be colour matched to the custom colour selected.

Powdercoat finishes will be applied with a standard satin finish at 40% sheen. For custom sheen finishes e.g. matte or gloss, surcharges will apply.

Duratec custom powdercoats also available. Please see price lists for charges.
